

Mixer Abuse Reported Data Plan

Overview

We wanted to look at Mixer's Report system objectively. In order to do that we needed to remove the emotion and create distance from the data being collected. The overall question that we are looking to answer is:

"Is Mixer's code of conduct being enforced?"

All the information gather for this study will be available and public. Here is a link to the spreadsheet that we are collecting all the data.

https://docs.google.com/spreadsheets/d/1bxYOzL_mvwxXZvgkUCZ2XaZu5g5jV6fb00IUjBBDQz0/edit?usp=sharing

What data are we collecting?
<ul style="list-style-type: none">• Timestamp• Channel• Username• Level• Sparks• Experience• Account Creation Date• Suspended• Verified• Message• Audience• Game being played
Derived Insights
<ul style="list-style-type: none">• Total number of reports• Total number of reports per day• Total number of reports per time of day• Total number of reports per channel• Total number of reports per channel per day
